

**Department:** Mining Engineering

**Division:** Mining Exploitation

**Level and Major:** MSc, Mining Exploitation

---

**Course Title:** Advanced Drilling and Blasting

**Number of Credits:** 2

**Lecturer:** Dr. S.Hassan Khoshrou

---

### **Course Goals and Objectives**

Introduction to the principles of blasting engineering

### **Course Topics**

- Introduction to the principles of blasting engineering
- Discussion about theories of blasting and their application in rock failure and to achieve desirable crushing
- Blasting design for tunnel drilling
- Creating stairs and mineral exploitation

### **Reading Resources**

- Atae-pour, M (1391), Principles of 2D ore-body modeling, Amirkabir University of Technology Publication
